

SECRETSAPC- 14007
Copy 4 of 6

19 March 1957

Dear Bart:

Reference is made to the Read-Out Equipment for Systems I and III presently on order for FOG. As you know, there are four (4) complete sets consisting of Racks A through F, and approximately an additional five (5) sets of analysis equipment only (Racks C through F). For specific numbers of each rack refer to paragraph E.4 of Appendix I of the Schedule as revised by Amendment No. 10 to the contract.

Upon delivery by you, FOG plans to ship these racks to various locations. At present there are approximately eight (8) locations of which five (5) are overseas. Some stations will have complete sets while others will have only duping or analysis racks.

In any event, it will be necessary to have one of your technical people assist FOG people at each of the sites during initial set-up and check-out. It is my understanding that you have already done this for the first group of racks installed at Omaha. Therefore, a similar service at each of the other sites should be programmed. A listing of such sites and racks therefor will be sent to you in the near future.

With regard to material support, the contract presently provides for you to furnish a FAK of spares for each rack. In addition, FOG desires eight (8) copies of the list of FAK spares for each different rack. This will aid them in distribution of their spares and each location will be aware of what they will receive and what is necessary to support their racks. Further, a copy of the maintenance and operation instructions handbook should be packed and delivered with each rack.

Contractor is requested to accept this letter as written authorization to comply with the foregoing. Any additional costs involved in the above scope of work should be made known to us at your earliest convenience and appropriate coverage will be added to the contract by amendment.

Yours very truly,

SA/PC/DCI/JMcD:pf (3/19/57)
Distribution:Orig & [redacted]
Cy 3 - [redacted]Approved For Release 2000/09/01 : CIA-RDP81B00878R001400030089-2
5 - FOG - - 6, Chrono

George
